(57) **CLAIM**

The ornamental design for a portion of a display panel with a transitional graphical user interface for navigating imagery, as shown and described.

DESCRIPTION

FIG. 1 shows a detail of FIG. 2, enlarged and separate from the display panel for clarity of illustration;

FIG. 2 shows a front view of a portion of a display panel with a transitional graphical user interface for navigating imagery, showing a first image in a sequence for the new design;

FIG. 3 shows a detail of FIG. 4, enlarged and separate from the display panel for clarity of illustration; and,

FIG. 4 shows a second image in a sequence for the new design.

The subject matter of the present disclosure includes a process or period during which one image changes into another image. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 3, FIGS. 3 and 1, FIGS. 2 and 4, and FIGS. 4 and 2. The process or period in which one image transitions to another image forms no part of the claimed design.

The two outer broken line rectangles in FIGS. 2 and 4 showing a portion of a display panel, and all other broken lines showing portions of the transitional graphical user interface, are included for the purpose of illustrating environmental structure and portions of the article and form no part of the claimed design.
