(54) Title: AN APPARATUS AND A METHOD OF PROVIDING INFORMATION TO A USER

(57) Abstract: An apparatus and a method of providing information to a user, such as for the user to navigate in the items. The items are provided in an order, and navigation in the order will provide different items on the display. When reaching an end of the order, the items displayed on the display are displaced a fraction of an extent of the display or the items on the display are subsequently returned to the original position in order to inform the user that the end of the order has been reached.
